

ROAMING SOLUTIONS

sponsored
roaming

With 540 roaming partners connected, there's potential for any operator to gain new connections quickly & easily.

Roaming is a competitive business and every mobile network operator (MNO) or mobile virtual network operator (MVNO) wants to offer the best footprint to their customers quickly and cost effectively.

These constraints are just one of the reasons why JT Wholesale offers this unique service. Within the roaming industry. Our innovative turnkey solution offers you outbound roaming with 540 implemented bilateral roaming connections through one single relationship.

Why JT for Sponsored Roaming:

Agility – JT is a small, yet agile company with a global footprint. Its roaming footprint and commercials are comparable to any large tier 1 operator/group

Independence – JT's independence from a large operator group means there are often agreements with several operators in each country allowing more in-depth coverage

Coverage – As JT is independent of any group affiliation, there are often several preferred discount partners in each country

Transparency – Pricing for roaming traffic is completely transparent

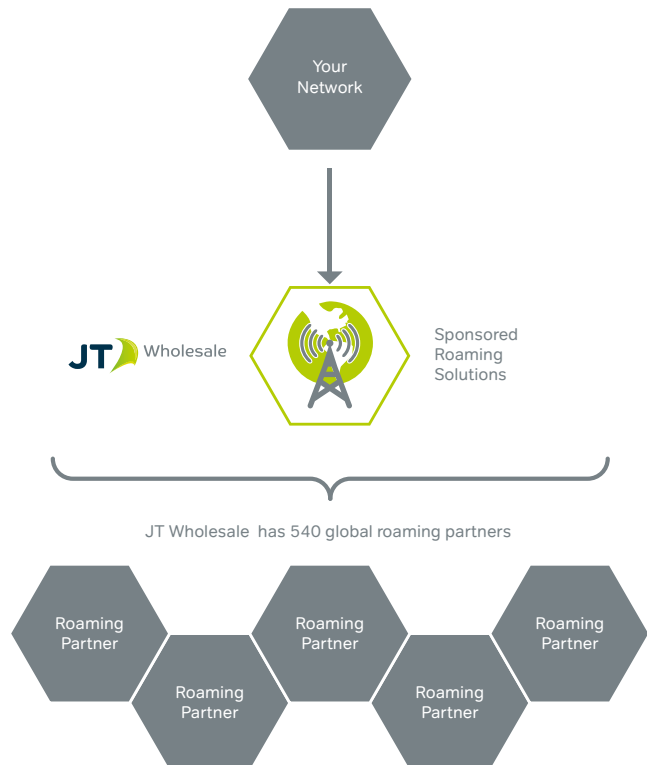

Sponsored (Outbound) Roaming Solutions

The JT Wholesale sponsored roaming solution cost effectively connects your customers to our 540 roaming partners quickly with minimal testing, convenient billing and fraud reporting.

Benefits of Sponsored Roaming

- Provides highly competitive EU regulated style tariffs for roaming
- Offers broad international coverage
- Is seamless to the end user
- Simplifies the management of roaming operations
- Constantly acquire new roaming destinations & roaming revenue

Contact

Please contact JT to learn more about the solutions and how we can help you establish an affordable global roaming footprint and revenues in record time.

Cara Murphy

Head of Roaming and Carrier Relations JT Wholesale

Cara has over 15 years experience in the roaming industry so understands the challenges organisations face when expanding roaming footprints and also has a wealth of knowledge about how to optimise this.

JT Wholesale are a full member of the GSMA and Cara was elected by her industry peers to the role of Deputy Chair of RING within the GSMA. Cara dedicated 5 years to the role, is the former GSMA PRD owner of BA21 & BA22 network extensions and continues to be an active member of the GSMA working Groups.
