

JT Business Call

Product Description

JT Business Call works by routing calls from your Sure lines to the JT network when a predefined number is dialled on ISDN. Customers will continue to pay line rental to your current provider and therefore this does not affect any contractual agreement you have with this company. Furthermore, there is no need to change the existing telephone number.

Your business can enjoy:

- No Connection Fee
- No Change to your monthly line rental
- No Minimum Term
- No need to change Phone Numbers
- No need to change from your Existing Provider
- No change to any current directory entries

Product Detail

There is no change to your current lines or numbers that you have with your current provider, you will need to continue paying line rental as you do now. Once connected to the service customers can dial any mobile, national or international number range currently available to them from Guernsey.

Please note that numbers beginning with 0500,070, 08, 09 or 118 are not included in the service.

Connection Requirements

A site survey will determine what actions are necessary in order to dial the predefined number. Providing the correct line configuration is present JT will arrange to program your existing PABX so the number is dialled automatically. Installation of equipment or programming by a JT engineer will be provided FREE OF CHARGE. Any programming costs from your current provider may be reimbursed depending on charges.

Features

070,08,09,0500 or 118. Normal call rates will apply Non-geographic, Premium Rate & Directory Enquiries.

These numbers are made up of two charges:

- A network access charge: JT charge 40p per minute from Fixed Lines & Mobiles.
- A service charge: This is the rest of the call charge. The organisation you are calling sets this charge and we would recommend you contact them for the latest call charges.

Please note charges can range from a few pence to several pounds per minute.

Further information and a number checker can be found here
