

JT Video Conferencing

Product Description

More and more businesses are realising the benefits of video conferencing. With the significant development in video equipment, a day's meeting can now be held seamlessly over real-time video, both from the office or remotely; saving your business time and money. Which is why JT have partnered with leading global video conferencing providers; Cisco and Mitel, to deliver the very best in collaboration solutions, perfect for globally-minded businesses of all sizes.

As our businesses are becoming ever more internationally mobile, the demand to stay in touch when and wherever we are is increasing. More and more business leaders are recognising the increasing benefits and impact of both office-based and mobile video conferencing, as a key part of their collaboration strategy. Which is why JT have partnered with global market leaders Cisco and Mitel, to provide our customers with the most advanced solutions.

Today's video conferencing provides the ability to bring in multiple parties from fixed and mobile locations, alongside other advanced features like real-time document sharing and multiple presentation formats, with both clarity and ease. What's more, now that we have installed video conferencing equipment into all of our own JT offices globally, when you speak to a JT specialist they'll be talking with first-hand experience about the huge benefits versus a relatively small investment.

Travel is and will remain a vital part of connectivity for businesses who are working across multi-locations. However transport delays, if they happen, can be costly and time-consuming. The huge advancements in video conferencing mean businesses can now take control of improving communications and relationships by enabling people to meet 'face-to-face', wherever they are located and without the travel down-time.

- ✓ **Improve decision making with instant face to face video solutions**
- ✓ **Build relationships, trust and understanding across your own teams**
- ✓ **Reduce employee travel, real-estate costs and environmental impact**
- ✓ **Encourage best practice and knowledge sharing amongst employees, partners and customers**

Why not find out how JT's Video Conferencing will give your business and staff the edge and let us help you shape the optimum solution for your business.
